SUNHOME

Sunhome Smart Rooftop Energy System

Light-Driven Life

Sunhome Smart Rooftop Energy System

Light Speaks, Future Listens

Full-Stack Self-Developed Technology

Maximum Efficiency
Minimum Cost

Guaranteed Safety

Comprehensive Protection

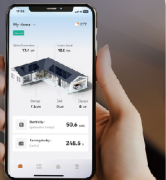

Ultimate Aesthetics

Perfect Integration of
Technology wit Architecture

Intelligent Home Management System

Worry- Free Energy Consumption

Full-Stack Self-Developed Technology

High Efficiency
Power Genera-
tion, Up to 3%
Improvement

Fast Charging &
Instant Power,
Up to 25%
Improvement

Highly Systemat-
ic Integration,
Lossless Energy
Conversion

Guaranteed Safety Comprehensive Protection

24/7 Power Supply, 10-Millisecond Seamless Switching

One-Touch Emergency Shutdown

Child and Pet-Friendly, Seamless Hidden Wiring

Weather-Resistant Design, Multi-Layered System Protection

Ultimate Aesthetics

Full-black Modules; Hidden Wiring; Integration of Technology with Architecture

Intelligent Home Management System

IoT Technology Empowered;
Precise measurement of energy generation and consumption;
AI-driven optimal strategies of energy generation, storage, and usage.

8% Electricity
Costs Reduction

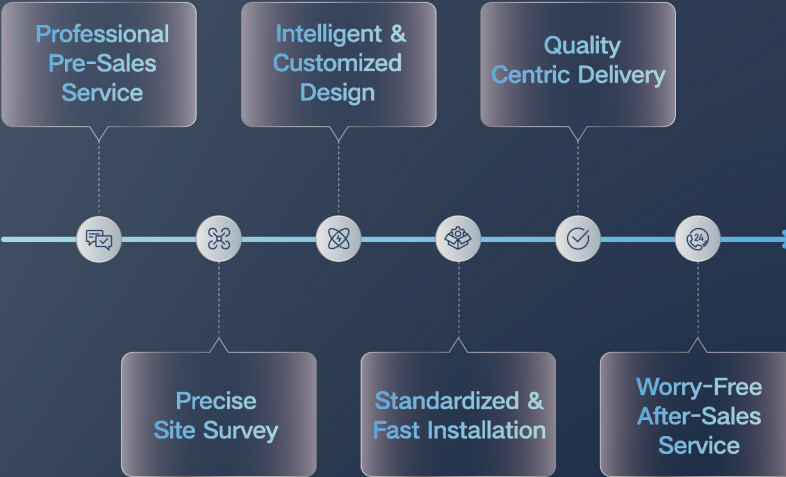

24H Energy
Usage Monitoring

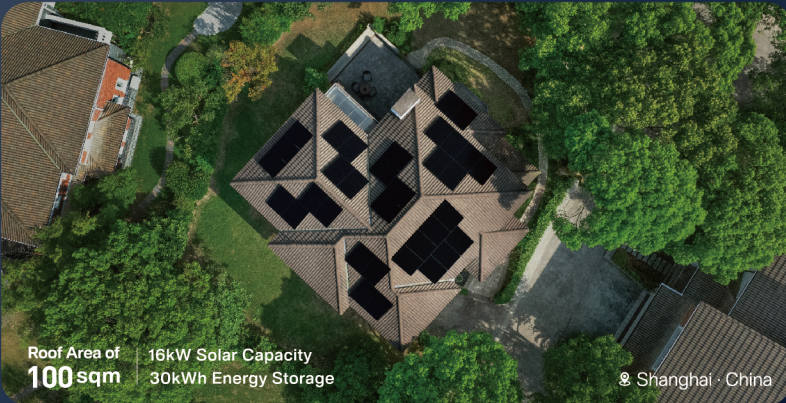

100% Green
Power Enjoying

End-to-End Servicewith Complete Protection

Customer Case

Annual Electricity
Output

19000 kWh

Average Annual
CO2 Emissions

19 t

Equivalent Annual
Planting of

1000 Trees
